NEW

The Elegance Plant Support Kit

This unique kit creates a plant support that is elegant as well as functional, enhancing the display of your plants.

Orchid Support

This innovative support is both functional and decorative, and has the flexibility to support and display orchid flowers naturally and gracefully.

NEW

Round-all Trainer

Trains your plants to grow "round-all" kinds of existing structures, turning even the most unappealing corners of your garden into attractive displays!

Plant Trainer

This flexible design means you can use it to meet your plants needs, creating different shaped supports for all your pot plants!

NEW

Herbaceous & Vegetable Support

Ideal for flowering and crop-bearing plants, simply attach the kit fittings to suitable canes to provide the desired support as the plants grow.

NEW

Pole Topper

Create the maypole effect with ease, using our rot-proof Pole Topper Kit ideal for climbing and crop-bearing plants.

NEW

Zip-Up Plant Support

This two-step kit allows you to simply push the fittings onto an existing cane, and then twist to create the swirls - ideal for all kinds of plants.

NEW

Downpipe Trainer

Our brand new trainer that allows you to transform unsightly downpipes into beautiful floral displays!

Plant Basket

Designed to convert a normal plant pot into a climbing plant support system, creating amazing basket-shaped displays.
